

## BARIATRIC SOLUTION

### THERAPY TREADMILL TO ACCOMODATE A VARIETY OF PATIENTS

Much like the PPS Med, the Bari-Mill provides comfort and assistance to patients who require walking support. With infinite possibilities in width and height the Bari-Mill is great for larger bariatric patients as well as children due to the lowering capabilities.

With an absolute zero start speed that increases in increments of 0.1 mph and an 800 lb. user capacity, no patient is excluded from therapy due to equipment restrictions.
